

### How do I apply and when will I know if I have a place?

Please understand that we are a small exam centre aimed at home educated, school aged students and we cannot always meet the incredible levels of demand we get for some of the most popular subjects, e.g. maths, English & science.

To apply to sit an exam we need to send you a link enabling you to apply online. If you do not have the link please email us at the email shown at the top of this document. If you have applied for an exam before you must use the same link to add further exams and to add siblings.

Your online application does not guarantee that a place will be available. When you apply online we will tell you if we have a place available for you 7-10 days **after the entry deadline being 30 Nov for summer exams and 7 June for autumn exams**. Please understand that applying online for a place does not guarantee we will be able to offer a place, we do not work on a first come first served basis and all requests are prioritised during the 7-10 days after the deadline.

### Applications for AS & A Levels

Due to the increase in requests for exams at our centre, our capacity to meet demand is significantly challenged and we have made the difficult decision to no longer offer AS and A level exams; if we have previously been in communication with you about AS/A level exams then please contact us by email, see top of document.

### Applications from mature students

If you are a mature student (over 18) then you must email us with your request (see email at the top of this document). If you have already been given a link to our booking system, please ensure you have our permission to apply online first and only when we have instructed you to do so. Please note that we are rarely able to offer places to mature students and our decision to offer a place is entirely at our discretion.

### Exam fee changes

Due to increased exam board fees and running costs it has been necessary for us to increase exam fees from summer 2025.

We very much hope not to have to increase fees in 2026 but we cannot guarantee this.

### CIE Exams

CIE is an international organisation, running exams all over the world and their timetabling occasionally means an exam may fall on a UK bank holiday or during half term. In the case of it falling on a bank holiday, we will not run the exam, in the case of it falling during half term it will depend on demand for the exam and our available resources. If we are able to run the exam in half term there may be an additional fee.

### Edexcel Music, OCR Art, Film Studies

These exams are only offered to students of our approved tutors . Please contact us for details. NB they are only available for Summer sittings.

### Child Development, Drama & Hospitality and Catering

These exams are only offered to students who attend our associated tutorials at our centre. Please contact us for details.

### Autumn GCSE English and Maths - age restriction

We can only take entries for these autumn exams where the candidate is 16 years or older (on 31 August of the exam year). This is an exam board limitation
